## WORK AT HOME ASSIGNMENT FOR SUMMER VACATION

### SESSION 2020-21

Dear Parents

As you know this is a very critical time for all of us in the Lockdown Crisis. So it is our responsibility to follow preventive measures for the safety and academic performance of our children. It is time to assist them not only their academics but also their life skills. Holiday home – work has been planned to keep them in touch with their studies as well as it provides a room for their creativity. For parents, it is the time to make children more self-conscious, self-disciplined and self-confident as well as aware of simple safety rules, mannerism and moral values.

So spend time with your ward fruitfully and purposefully.

\*The weight-age of Holiday Homework will be 5 marks in Notebook Assessment as per given parameters:

	<u>Marks obtains</u>
a) Completion of work-02	_____
b) Hand writing & Presentation 02	_____
c) Timely Submission-01	_____

## **GUIDELINES FOR PARENTS :**

Messages for parents working with children at home

As public conversations around corona virus disease 2020 (COVID-19) increase, children may worry about themselves, their family, and friends getting ill with COVID-19.

Parents, family members, school staff, and other trusted adults can play an important role in helping children make sense of what they hear in a way that is honest, accurate, and minimizes anxiety or fear.

## **GENERAL PRINCIPLES TO AWARE CHILDREN :**

1. Remain calm and reassuring.
2. Remember that children should follow your guidelines regarding corona-virus precautions. Generally they will pick up cues from the conversations you have with them and with others.
3. Make yourself available to listen and to talk.
4. Avoid making assumptions about who might have COVID-19.
5. Pay attention to what children see or hear on television, radio, or online.
6. Consider reducing the amount of screen time focused on COVID-19. Too much information on one topic can lead to anxiety.
7. Give children information that is truthful and appropriate for the age and developmental level of the child.
8. Talk to children about how some stories on COVID-19 on the Internet and social media may be based on rumors and inaccurate information.
9. Teach children everyday actions to reduce the spread of germs.
10. Remind children to stay away from people who are coughing or sneezing or sick.
11. Remind them to cough or sneeze into a tissue or their elbow, then throw the tissue into the trash or use own handkerchief .
12. Discuss any new actions that may be taken at school to help protect children and school staff.
13. Get children into a hand washing habit?
14. Teach them to wash their hands with soap and water for at least 20 seconds, especially after blowing their nose, coughing, or sneezing; going to the bathroom; and before eating or preparing food.

15.If soap and water are not available, teach them to use hand sanitizer. Supervise young children when they use hand sanitizer to prevent swallowing alcohol, especially in schools and child care facilities.

16.Try to keep information simple and remind them that health and school officials are working hard to keep everyone safe and healthy.

***\*Note: Please do Holiday Homework in separate notebook.***
